Hi Frank

"Frank did an excellent job of decorating our kitchen, dining room, utility room and also our eldest daughters bedroom.

My wife and I had picked some very elaborate wall paper for two of the rooms with a pattern in tiny glass beads which catch the light beautifully but not surprisingly hanging the wallpaper is a very tricky job. On top of this challenge, Frank also had to deal with the fact that I am a 'fussy designer' who notices every little detail. Despite the challenges Frank did an excellent job and was always calm and professional at all times. I would happily recommend Frank to anyone."

Kind regards

Graham
